# How to help protect your child from inappropriate content on YouTube

**Restricted Mode** is a setting available on the computer and mobile YouTube sites that helps screen out potentially objectionable content that you may prefer not to see or don't want others in your family to stumble across while enjoying YouTube. You can think of this as a parental control setting for YouTube.

# How to enable Restricted Mode

Scroll to t	he bottom of any YouTube	e page and click the dro	p-down menu in the "Restricted Mode" s
Select the	On or Off option to enable	e or disable this feature	h.

Lock Restricted Mode:

If you would like Restricted Mode to stay enabled for anyone using this browser, you must lock Restricted Mode.

- 1. Sign in to your YouTube account.
- 2. Scroll to the bottom of any YouTube page and click the drop-down menu in the "Restricted Mode" section.
- 3. Click "Lock Restricted Mode on this browser".
- 4. Enter your password again to lock Restricted Mode on this browser.

1. Touch : Menu > Settings

All these settings, and many more, are available in the **YouTube Safety Centre**:

https://www.youtube.com/yt/policyandsafety/en-GB/safety.html

Note that these settings will help protect your child only whilst using YouTube. Additional settings can be made to increase the safety of general internet searches. Parental control software is available to help protect users from inappropriate content. Speak to the school for further advice.
